

## Piero Iamartino Appointed as Executive Director of the European Industrial Pharmacists Group (EIPG)

The European Industrial Pharmacists Group (EIPG) is pleased to announce the appointment of **Piero Iamartino** as its new **Executive Director**, effective 1 October 2025.

For more than twenty years, Mr Iamartino has served as the Italian delegate representing the **AFI (Associazione Farmaceutici Industria)** within EIPG. Throughout this period, he has played a key role in advancing the mission of EIPG, actively participating in initiatives that strengthen the recognition and influence of industrial pharmacists across Europe.

Over the past two decades, he held the position of **Vice President of Technical and Professional Development**, where he made substantial contributions through the preparation of position papers, presentations, and by serving as an EIPG spokesperson in high-level European meetings with authorities and partner associations in the pharmaceutical sector.

In 2022, Mr Iamartino was elected **President of EIPG**, where he completed his three-year mandate. During his presidency, he launched new initiatives, expanded EIPG's visibility, and supported membership growth among national associations across Europe.

With his appointment as Executive Director, Mr Iamartino will continue to utilise his extensive expertise in service to the President and the Bureau of EIPG. His mission will be to facilitate the implementation of EIPG's strategic plan, designed to strengthen the role of industrial pharmacists in Europe as they face new technological and regulatory challenges shaping the pharmaceutical industry.

*"I am very pleased to continue our strong collaboration with Piero. He has served EIPG for many years, and his experience, dedication, and ongoing commitment to supporting and advancing the role of industrial pharmacists are a true asset and a real gift to our EIPG community,"* says **Anni Svala, President of EIPG**.

### About EIPG

*The European Industrial Pharmacists Group (EIPG) is a professional association representing the interests of industrial pharmacists in Europe. EIPG works to promote the role of pharmacists in industry, foster professional development, and support the advancement of the pharmaceutical sciences in response to evolving regulatory and technological landscapes.*
